

SHORT COURSE DETAILS

1.0 **Name of Series**

Short Courses in Education

2.0 **Name of Course**

Instructional Design

3.0 **Synopsis of Course (60-word limit)**

Instructional design is fundamental to teaching and learning. This topic provides an overview of the theoretical underpinnings of instructional design and relates these models with applications needed to effectively deliver instruction to learners. Both online and non-online instructional designs will be covered in this topic.

4.0 **For Whom?**

- Lecturers
- Teachers
- Educators

5.0 **Course Outcomes (100-word limit)**

- Learn the various instructional design models in teaching and learning.
- Relate instructional design models with effective teaching and learning practices in online and non-online learning.
- Examine best practices in instructional designs and evaluate their outcomes towards effective instruction.

6.0 **Delivery Mode**

Lecture, workshop, case studies and assessment of learning.

7.0 **Duration of Course**

3-hour presentation

8.0 **Level of Course & Microcredential Credit Value, if any**

Master's level with some micro-credential value

9.0 **Course Outline**

Topic 1: Instructional Design Models in Teaching and Learning

Topic 2: Best practices in instructional systems design

Topic 3: Evaluation of instructional designs

10.0 Short Bio of Trainer/s (50-word limit)

Dr. Soon holds a PhD in instructional technology. He has vast experience in managing instructional technology institutions, teaching, conducting research and evaluation, and teaching statistical analysis.
